HARD HAT AREA

This Just In!

Sierra Disaster Restoration is proud to announce the completion of the work at the CTA Apartments!

The County Teachers Association Apartments and Offices suffered substantial water damage due to the rupture of a fire sprinkler system line. Our team of disaster specialists worked quickly to restore the property to its original condition. In addition to the water damage restoration, the lobby area was remodeled to give it a modern look. The repairs included the replacement of the damaged drywall as well as the retexturing and repainting of the entire lobby, hall and mail room areas. The 3rd Floor A/C system was removed, refurbished and reinstalled in an updated A/C closet which was also built by Sierra. Another successful restoration project completed by the experts at Sierra!

Sierra has been servicing the Greater Bay area for over 37 years. Be sure to contact us for all of your emergency and construction needs!
