

# HARD HAT AREA

## A Growing Trend

### Sinkholes & the Damage They Cause to Homeowners and Community Associations

Following an unseasonably cold December and as a result of an overall rise in sinkhole claims, sinkholes are making front page news. More than ever before, we have been receiving calls relating to sinkholes and the damage they cause.

Sierra Construction & Restoration, Inc. specializes in Sinkhole Repairs for both residential and commercial properties. We'd like to highlight the completion of repairs to several local homes, where the scope of work included the restoration of driveways, stucco patching, painting, doors, windows, and flooring. We'll begin another Sinkhole Repair project in Longwood, Florida this month.
