Paul J. Sierra Construction, Inc. recently celebrated the completion of St. Patrick Church for the Diocese of Venice! This project called for the removal of all existing concrete tile roofing and replacing them with new metal barrel tile roofing and matching metal roof and fascia trims. Also included were new stucco on the Chapel and clearstory parapets of the Sanctuary, as well as new storm windows over the stained-glass clearstory windows on the Sanctuary.

Sierra has been servicing the Greater Bay area for over 37 years. Be sure to contact us for all of your construction needs! Visit our website to learn more: www.sierraconstruction.com
