Sierra Completes **stage works** Theatre!

Paul J. Sierra Construction, Inc. recently celebrated the grand opening of Stageworks Theatre in the Channel District of Tampa. Prior to the groundbreaking, the original site was simply dirt and exposed concrete walls on the ground level of the West building in Grand Central at Kennedy. Years of planning led to the build out of the performance theatre that boasts 99 seats and a large stage with a steel catwalk above.

The theatre also features a spacious lobby, rehearsal hall, dressing rooms, offices and much more in the two-story, 8,000 square foot space. The Theatre is the new home for local performance company, Stageworks, known for their community involvement.

We at Sierra are proud of our team's dedication to this project and grateful for the relationship that we've developed with Stageworks. We are very pleased with the final outcome and were thrilled to experience the opening night performance and look forward to many more!

Sierra has been servicing the Greater Bay area for 37 years. Contact us for all of your building needs! Visit our website to learn more: www.sierraconstruction.com !
